

**FOR IMMEDIATE RELEASE**

*SEPTEMBER 12, 2022*

(Dallas–Fort Worth, Texas, September 12, 2022) *BEHOLD* is a digital magazine created to complement our Front Porch Conversations event series and podcast. Front Porch Conversations is a platform for truth-telling conversations about essential topics in everyday people's lives. It also gives space for the sharing of phenomenal women of color across the country who have impacted the lives of children, women, men, and families of all generations and backgrounds.

*BEHOLD* Magazine presents interviews and profiles of awe-inspiring and impactful individuals who lean into their calling, passion, and life without abandon. Our unique offering will invite readers into the lives of women who have given selflessly and generously to society without expecting fanfare or praise. They are whole people, self-disciplined, joy-filled, and celebrators of others. Their lives testify to what we can accomplish when we tenderly and unapologetically are kind and compassionate towards ourselves, hold a safe space for others, and aspire to serve humanity.

Nationally recognized speaker and author Lisa C. Williams is the founder and editor of *BEHOLD* Magazine. Ms. Williams is committed to sharing conversations and lessons learned that foster women's empowerment while asking the right questions of thought leaders to reveal social and health disparities, seeking solutions to bring meaningful change for individuals and communities often dehumanized and abandoned.

"Too many of today's media offerings promote unrealistic expectations and negative imagery of women, masterful fabrication of untruths presented as truths, and an 'us vs. them' message," Williams explains. *BEHOLD* magazine bridges the gap by eliciting authentic, courageous, truth-telling experiences of diverse women in communities we call home. Williams is committed to sharing their intentionality and commitment to excellence through their shared interviews, conversations, and curated stories.

As a thought leader, influencer, entrepreneur, self-care practitioner, and health and wellness coach, Williams has over 25 years of philanthropic service. She has been asked to share her message with national and international audiences. Her keynote addresses and podcasts cover issues like commercial sexual exploitation and trafficking of children; social, health, and economic disparities; health and wellness advocacy; self-care for women; and successful entrepreneurship by women veterans, non-veterans, and non-profit women leaders.

*BEHOLD* Magazine is published twice a year by Front Porch Conversations. For submission considerations, email profiles that demonstrate a life well-lived with significant community impact, letters to the editor, and other editorial content to [info@frontporchconversations.com](mailto:info@frontporchconversations.com).
